

GLOBAL STANDARD COOLER
AKG-Line A

OIL-TO-AIR COOLING SYSTEMS WITH AC-MOTOR

PRODUCT INFORMATION

AKG-Line is a standard line of products from the market leader in high performance aluminium cooling systems. AKG is best known for its world-wide presence, German engineering and extremely reliable product quality on the one hand and very competitive prices on the other hand.

The **AKG-Line** type series consist of different models for mobile and stationary applications and are available through our global specialist dealer network. This line of products embraces all-purpose complete cooling systems that comply with European or American Standards, is suited for normal or rugged environmental operating conditions, and is powered by AC-, DC- or hydraulic-motor-driven fans and is also available with noise-optimized models.

All of AKG's solutions have been developed with state-of-the-art technology, produced in compliance with the highest quality standards and are comprehensively tested in the company's own research and test facility.

FEATURES OF THE A SERIES

- High-Performance Aluminum cooling assemblies
- AC-motor powered fan
- The heat is transferred from the medium to be cooled to the ambient air
- Cooler can be universally used in hydraulic oil, transmission oil, engine oil, lubricating oil and coolant circuits
- For the cooling of mineral oil, synthetic oil, biological oil as well as of HFA, HFB, HFC and HFD liquids and water with at least 50 per cent of antifreeze and anticorrosive additives (other media available)
- Can be exposed to operating pressures of up to 26 bar or 17 bar, depending on model

BENEFITS

- Highly flexible complete, ready-to-use cooling packages
- Compact and robust design, field-tested during many years of use in rugged real life conditions
- Largest and most comprehensive series of industrial coolers

- Best heat transfer results per given cooler size due to comprehensive research and development
- Highest quality due to professional engineering and in-house manufacturing
- Available from stock or at short notice
- As a standard, equipped with **AKG's double-life** hollow sections designed to increase cooler service life
- As a standard feature, available with louvered high-performance air fins or alternatively with non-louvered low fouling cooling air fins
- Noise-optimized models available (low-noise series)

FLEXIBLE AKG HOLLOW PROFILE

AKG-Line uses AKG hollow profiles to reduce local peak strains. This way the strength of heat exchangers is significantly increased and their service life time considerably prolonged.

AKG HOLLOW PROFILE FEATURES

- **Reduced Strain:**
Strength calculations show that when using AKG hollow profiles maximum strain is reduced by a factor of 2
- **Prolonged Service Life Time:**
Extensive rig tests have shown that service life time increases by a factor ranging from 3 to 5

EASY SIZING DIAGRAM

FOR ENTRANCE-TEMPERATURE-DIFFERENCE 40 K

Selection by Specific Heat Rejection

1. Input Data:		Example
Required Heat Rejection	P =	130 kW
Oilflow through Cooler	V =	200 l/min
Oil Inlet Temperature	T_Oil	70 °C
Cooling Airflow Temperature	T_CAF	30 °C
2. Determination of Specific Heat Rejection:		
Entering-Temperature-Difference	ETD =	70 °C - 30 °C = 40 K
Required Specific Heat Rejection	P/ETD	130 kW/40 K = 3,25 kW/K
3. Select According to Diagram and Result:		
		Next higher curve A 225

SPECIFIC HEAT REJECTION

TECHNICAL DATA

Model Size	Voltage of 3 Phase-Motor (V)	Motor Power Consumption (kW)	Nominal Speed (rpm)	Approx. Noise Level (dB(A), 1m)	Approx. Net Weight of Assembly (kg)	Volume (l)	Frequency (Hz)	Working Pressure (bar)
A12	230/400	0,37	3000	80	20	2,3	50	26
A16	230/400	0,37	3000	83	24	3,5	50	26
A25	230/400	0,55	1500	81	32	4,5	50	26
A35	230/400	0,75	1500	80	43	5	50	26
A45	230/400	0,75	1500	81	60	7,5	50	26
A55	230/400	0,75	1500	83	69	9	50	26
A75	230/400	0,75	1500	82	81	13,5	50	26

ORDERING INFORMATION

Serial Code: Model Size:

A	
----------	--

Optional Custom Features:

with:

with Blower Fan
with Resistplast Coating
with Motor Frequency 60 Hz
with large Support Feet

[B]
[+R]
[+T]
[+60 Hz]
[+LF]

without:

without Motor
without Motor, without Fan
Cooler Only
Cooler without Paint
without Support Feet

[-M]
[-FM]
[C]
[-P]
[-F]

Order Code Example: Heat Exchanger, 75 KW, sucking AC-driven fan -> **A75**
Heat Exchanger, 120 KW, blowing AC-driven fan -> **A120B**

COOLER DIMENSIONS A12 TO A105

COOLER DIMENSIONS A120 TO A330

STANDARD SCOPE OF SUPPLY OF OIL-TO-AIR COOLING SYSTEM

- Cooler made of painted aluminium
- Plastic fan
- Fan-shroud, fingerguard, support feet and motorholder all made of steel (chromated or powder coated)
- Motor

AKG – A STRONG GLOBALLY INTEGRATED GROUP OF COMPANIES

AKG is a globally leading supplier of high-performance coolers and heat exchangers as well as customised system solutions that comply with the highest quality standards.

On a world-wide scale 2,600 employees work at 13 manufacturing facilities located in Germany, France, United Kingdom, Latvia, the U.S.A., China and India. Together with a number of additional oversea sales companies they are on duty around the clock.

Your AKG-Partner

The longstanding and competent partnership with global OEM customers from 22 lines of business such as construction machinery, compressed-air systems, agricultural and forestry machines, vehicle construction and many other fields of application give fresh and innovative impetus to the mobile and industrial standard type series.

AKG operates one of the world's largest research, development, measurement and validation centres for cooling solutions and customised applications.

For 90 years AKG's heat exchangers have stood for innovative solutions as well as highest engineering and manufacturing competence.
